

ARB Box Creative Crates

2020

SHIP IT –SAVE IT- SHIP IT AGAIN!

WE OFFER

The ARB Box is made to last. Only high quality timber sheet materials are used. We are flexible -no project is too small. We are effective- no project is too

stacking etc. We will design the optimum shape and size packaging solution not only to fit the products in the crate but also to fit the crates in truck or shipping container. We are

Effective multipurpose boxes

large. The quality and design of the returnable plywood or OSB box is the essence if you want to achieve strong, safe and sustainable packaging while minimizing costs.

Any of our standard boxes can be customized according to your needs and specifications. We will solve all possible challenges and we will deliver a successful and integrated packaging solution with maximum capacity, efficiency and protection. We are fully focused to deliver the best solution for every client.

High precision CNC technology offers the possibility to swiftly provide you with a high quality sustainable and cost- effective packaging solution- that will complement your product.

We provide the client with the initial packaging solution design and cost calculations at an early stage in the communication process- easing out the decision making and search for best solution.

Additional safeguards to ensure the safety to the goods transported in our boxes can be added to prevent damage caused by vibration, dropping, moisture, pressure,

working with different kinds of packaging fittings and we are ensuring that are the best possible ones for the goods to be shipped.

Our experienced design teams will cooperate with you to meet your specific needs.

Standard EURO Size Crates

To ease the packaging and optimization process our standard crates use the widely known euro pallet base size modules- 800x1200 and 1000x1200 with two different heights – 1140 for standard shipping container and 1290 for hi-cube shipping container.

HI-Efficiency Crates

To maximally utilize the truck or shipping container volume we are offering crates that leaves no spare space in the vehicle.

Laminated and UV resistant plywood crates for outdoor use!

Build Your Box

WE OFFER

Choose Box Material:

Laminated Plywood
